DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 - 30, drawn to a method for decreasing serum cholesterol.

Group II, claim(s) 31 – 53, drawn to a therapeutic composition.

Group III, claim(s) 54 - 76, drawn to a therapeutic system.

2. The inventions listed as Groups I, II and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature described in each of the independent claims of Groups I, II and III, is drawn to a lactic acid bacteria combined with one of a cholesterol reducing agent or a bifidogenic oligosaccharide. However, Japanese patent number 2000-256202 A teaches a composition containing lactic acid bacterium and a cholesterol reducing agent, namely *Enterococcus faecalis*. Therefore, a special technical feature does not exist across the groups aforementioned. Furthermore, Group III, claims 54 – 76, drawn to a therapeutic system, does not fall into the combination of categories

for unity of invention, as it relates to Groups I and II, as described in Annex B, Unity of Invention, Part I (e) of the MPEP.

3. A telephone call was made to Ingrid Beatty on July 3, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
